Read the following Documents on the Ways Wind Speed is Recorded - Peak Gust - 5 Sec Gust - Fastest Mile and see the US Weather Map during Hurricane Hazel																													
Month	Day	Yr.	Event Causing the high wind speed - - -																										
Oct	15	1954	Hurricane Hazel gave Richmond a peak wind gust of 79 mph (fastest mile 68 mph) and the lowest barometric pressure of 28.75 inches as of 1954. Hazel gave only 1.15 inches of rain as it was moving at about 50 mph. The highest forward speed of Atlantic Hurricanes was the 1938 New England storm that may have moved as fast as 70 mph.																										
1	May	06	1989	A severe thunderstorm with 1.80 inch rainfall and hail with SW winds to 79 mph ahead of a cold frontal passage.																									
2	May	11	1996	A passing thunderstorm gave only 0.15 inches rainfall but with NNE winds to 60 mph.																									
3	Aug	18	2003	Hurricane Isabel hit the NC coast then Richmond. Governor Mark Warner described Isabel as "probably the worst storm in a generation." Fatalities 36 & total damage was \$1.9 billion dollars.																									
4	Feb	10	2008	A very strong cold frontal passage gave 63 mph NNE winds but without any precipitation.																									
5	Aug	22	2009	The Richmond International Airport had a heavy thunderstorm giving winds to 64mph and 1.56 inches rain. Glen Allen had winds to only 20mph but had 1.01 inches of rain.																									
6	Aug	27	2011	Hurricane Irene is ranked as the seventh-costliest hurricane in United States history at \$15.6 billion dollars and killed at least 56 people.																									
7	Aug	2	2012	The Richmond International Airport had a squall line thunderstorm with winds to 61 mph and 0.65 inches rain. Glen Allen had only 33 mph but had 1.35 inches of rain.																									
8	Jun	25	2016	A severe electrical storm at Glen Allen with 1.19 inches of rain & caused the failure of one computer hard drive. The Airport had NNE winds to 70 mph & 0.93 inches of rain.																									
9	Jun	16	2016	The worst thunderstorm to hit Glen Allen since 6-25-2012. Much wind damage over Henrico with power outage of 160,000 in Henrico
