	8	2	0	9	5	1	17	REMARKS FOR THE MONTH
DRIZZLE	RAINBOW	HAIL	THUNDER	T. SHOWER	T. STORM	HAZE		On the 6th and 7th of November 1963 4.48 inches of rain fell but on August 23rd and 24th 5.49 inches of rain fell this is a new two day record rainfall for Naked Creek
<p>The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.</p>
