	DRIZZLE	RAINBOW	HAIL	THUNDER	T. SHOWER	T. STORM	HAZE	On the 23 the maximum temperature for the daylight period was 30 °F the 44 °F temperature recorded on the records was from the sunset reading the evening before.
								<a href="#">AN ADDITIONAL SUMMARY FOR 1967</a>
								<a href="#">THE 1960'S HAD THE MOST SNOW</a>
								The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.
