	0	0	0	0	0	0	0	REMARKS FOR THE MONTH	
	DRIZZLE	RAINBOW	HAIL	THUNDER	T. SHOWER	T. STORM	HAZE	Unusually severe January with snow on the ground the entire month with a heavy snow on the 19th. This snow was followed by the roughest and coldest weather I have ever seen. Terrific cold on the 28th.	

The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.

DRIZZLE	RAINBOW	HAIL	THUNDER	T. SHOWER	T. STORM	HAZE		Almost an average January except for dates like the 11th. A mild January compared to last year. We had only 2.5 inches of snow this month.
<p>The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches.
