	2			0	0	0	0	0	REMARKS FOR THE MONTH
		DRIZZLE	RAINBOW	HAIL	THUNDER	T. SHOWER	T. STORM	HAZE	On the 24 and 25 water ran 6 inches deep in the lowland fields and pasture above the house. We had to take the pump out of the well pit so it wasn't covered by water 27 days the temperature was freezing or below.
<p>The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.</p>

	DRIZZLE	RAINBOW	HAIL	THUNDER	T.SHOWER	T. STORM	HAZE	REMARKS FOR THE MONTH

On Jan. 31st was the lowest temperature on my records yet. Heavy hoarfrost seen on trees and fence post and wires. This is extreme cold for this area. The only engine we could get started was that of the WD-45 tractor.

The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were more than 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.
