AVE.		37.06	16.48	20.58	26.77			0	No records for February as Marye was in Northern VA at Phyllis Lane in Alexandria, VA recovering from the surgery
MAX.	Dates	61	39	43	47.5	0.45	5.0	5.0	The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure the scale particularly if they were > 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.
