TOTAL NUM		1688	961	727.0	1324.5	4.62	16.5	0.0	REMARKS FOR THE MONTH
AVE.		54.45	31.00	23.45	42.73	8		Days 2	
MAX.	Dates	78	44	44	60.0	1.20	8.5	0.0	The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were > 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.
