AVE.		78.26	46.42	31.84	62.34				The rainfall for Dale Enterprise for May was 3.94 inches
MAX.	Dates	94	60	49	77.0	0.48	0.0	0.0	The rain gauge used in observations from 1958 to 1984 was about 2.5 - 3.0 inches square at the top. It was tapered to a smaller size at the bottom that exaggerated the scale more at the bottom than the top. This gauge worked poorly to measure snows particularly if they were > 3 or 4 inches. This gauge was then replaced with a 4 inch plastic gauge that was scaled in hundredths of an inch on the inside cylinder.
