Tornado: 2

- Near Thaxton, VA
BEDFORD COUNTY

Date	4/19/2019
Time (Local)	11:22 AM to 11:25 AM
EF Rating	EF-1
Est. Peak Winds	93 mph
Path Length	1.8 miles
Max Width	60 yards
Injuries/Deaths	None

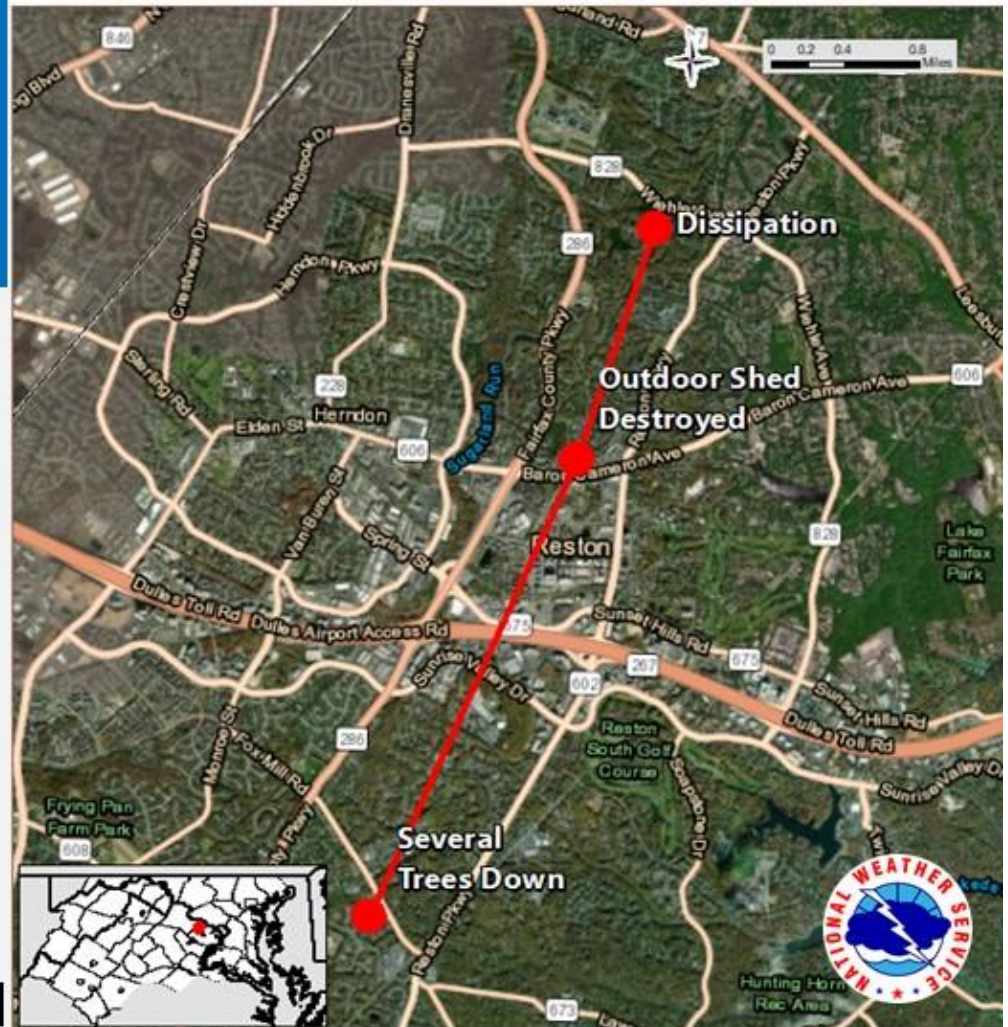

Summary:

The NWS Damage Survey has concluded that an EF1 tornado touched down about 2.5 miles north of Thaxton, VA in Bedford County, around 11:22 AM EDT. The initial touchdown was near Patterson Mill Road. The tornado stayed on the ground for about 3 minutes or for about 1.8 miles, uprooting or snapping trees. The tornado destroyed an outbuilding off of Centennial Road, before dissipating.

Track Map

Tornado: 3

Tornado - Reston, VA
FAIRFAX COUNTY

Date	4/19/2019
Time (Local)	8:55 PM
EF Rating	EF-0
Est. Peak Winds	70 mph
Path Length	4.0 miles
Max Width	100 yards
Injuries/Deaths	None

Summary:

The survey team confirmed a tornado occurred that produced a discontinuous line of damage along a path approximately four miles long, lasting five minutes. The tornado was rated EF-0, with peak winds of 70 miles per hour and a maximum path width of 100 yards. The tornado's storm motion was north-northeast at approximately 50 mph. Damage was mainly due to trees being either uprooted or topped. No injuries were reported with this tornado.
