All data are in the standard of time in local use. † Use the following abbreviations: R—rain, S^d—dry snow, S^m—moist snow, H—hail, Sl—sleet. †† T Indicates trace of precipitation. ††† Enter the local standard time of observation. * Inches and tenths.

(8) + Estimated. * Estimated in part.
 a measured by placing a piece of cardboard on the ground under the snow where the depth seemed to be about the average and placing the mouth of the snow gauge over it, thus obtaining an amount of snow closely approximating what would have fallen in the case.
