[1]

LLK:  
Wakefield and XMACIS both have 4.11 inches for January.

[2]

LLK:  
Wakefield and XMACIS both have 4.11 inches for January.

[3]

LLK:  
This 2.66 inches is from Wakefield and is correct. Wakefield has the original observations for the Richmond International Airport and this does not agree with ACIS data. The Airport has 0.31 inches on the 26th and XMACIS 0.29 inches.

[4]

LLK:  
This 5.54 inches is from Wakefield and is correct. Wakefield has the original observations from the Richmond International Airport and this does not agree with ACIS data. Wakefield has 0.06 inches on the 17th not 0.04 which XMACIS has.

[5]

LLK:  
Wakefield and XMACIS both have 4.59 inches for April.

[6]

LLK:  
Wakefield and XMACIS both have 6.32 inches for May.

[7]

LLK:  
Wakefield and XMACIS both have 2.73 inches for June.

[8]

LLK:  
This 4.05 inches is from Wakefield which is correct. Wakefield has the original observations from the Richmond International Airport and this does not agree with ACIS data. Wakefield has 1.34 inches on the 14th not 1.37 which XMACIS has.

[9]

LLK:  
This 7.93 inches is from Wakefield and is the correct value. Wakefield has the original observations from the Richmond International Airport but this does not agree with ACIS or NWS data. Wakefield has 7.93 inches and the NWS has 7.75 inches and XMACIS has 7.78 inches.

[10]

LLK:  
This 3.05 inches is from Wakefield and is correct. Wakefield has the original observations from the Richmond International Airport and this does not agree with ACIS data. The NWS has 3.05 inches and XMACIS has 2.96 inches.

[11]

LLK:  
This 3.21 inches is from Wakefield and is correct. Wakefield has the original observations from the Richmond International Airport but this does not agree with ACIS data. XMACIS 3.22 inches for October and the NWS in its 1960 summary has 3.21 inches.

[12]

LLK:  
This 5.75 inches is from Wakefield and is correct. Wakefield has the original observations from the Richmond International Airport but this does not agree with ACIS data. XMACIS has 5.49 inches for November and the NWS in its 1960 summary has 5.74 inches.

[13]

LLK:  
This 4.06 inches is from Wakefield and is correct. Wakefield has the original observations from the Richmond International Airport but this does not agree with ACIS data. XMACIS has 4.12 inches for December and the NWS in its 1960 summary has 4.14 inches.

[14]

LLK:  
This is the correct total.

[15]

LLK:  
This has been corrected by ACIS from 3.62 to 3.68
